

# Taking steps today can help brighten your future.

Saving for your retirement is important.  
So why wait?

There's no better time than the present to start taking advantage of your organization's retirement plan. It's a good move. And it helps you get on the path to save for your future.

Sure, your current financial obligations are important, but it may be possible to meet them while taking steps to provide for tomorrow. You can start small. But you should start soon.

## Here's how simple it is to save:

- Have your regular contribution automatically withdrawn from your paycheck. You'll be saving without even thinking about it.
- Increase your immediate tax savings by simply boosting your pre-tax contributions.
- Review your options during the enrollment process to choose the investment allocation that matches your goals. And it's easy to revisit and update your elections anytime.
